@http_workshop

What is the HTTP Workshop?

- **The HTTP Community** — implementers, specifiers, practitioners

- **Open Discussion** — invited talks to start conversations, not provide one-way information

- **Unique Opportunity** — people who wouldn't otherwise have time to interact

- **NOT** a decision-making body.

Outcomes

- Better communication in the community

- Insights into what's happening in standards, implementations, deployments

- Feedback to the standards process

How it Works

- We've invited a few prepared talks to kick off the conversation.

- Other topics can and will come up.

- We depend on attendees' participation in the discussion to make this valuable.

Lightning Talks

- We're setting aside time after lunch each day for Lightning Talks

- Five minutes to present, discussion as desired afterwards

- If you have a topic, please put it on the board

Code of Conduct

Our conference is dedicated to providing a harassment-free conference experience for everyone, regardless of gender, gender identity and expression, age, sexual orientation, disability, physical appearance, body size, race, ethnicity, religion (or lack thereof), or technology choices. We do not tolerate harassment of conference participants in any form. Sexual language and imagery is not appropriate for any conference venue, including talks, workshops, parties, Twitter and other online media. Conference participants violating these rules may be sanctioned or expelled from the conference without a refund at the discretion of the conference organisers.

"What happens at the Workshop…"

✅ Information in presented talks

✅ General observations about the Workshop

✅ Specific information discussed, UNLESS asked to keep "in the room"

❌ "Bob said…"

❌ "FooCorp is doing…"

i.e., *no attribution without specific permission*
